PLEASE NOTE

Prepping the home prior to your appointment time ensures our team of photographers can get to their next appointment at the regular scheduled time. If the photographer has to return to shoot the property due to it not being ready at the scheduled appointment time a \$75 return / re-shoot fee will be charged. We do this because of our photographers drive time / mileage and the time slot not able to be filled with another appointment.

If you are unable to get the home properly prepped in time we will shoot as is, or give us a call / text to reschedule your appointment and we would be happy to accommodate.

additional rescheduling fees may apply
